Tutor Report - Week 1 🗓️

You can find the detailed report of this week on Seafile for further information.

Summary of Discussion 🗣️

- **Date:** 04/02
- **Time:** 13:30 - 17:30
- **Attendees:**
  - **Tutor:** Stéphane Cateloin
  - **Project Manager:** Kylian Gerard
  - **Team Members:**
    - Elie Antonios
    - Omer Ali Armagan
    - Mamadou Mouctar Bah
    - Lounas Chikhi
    - Darren Delgado
    - Neila Krika

Key Points Discussed 🔑

- **Topic 1:** Decision process for selecting the project manager
- **Topic 2:** Presentation of several game options to help us choose
- **Topic 3:** Discussion about various technologies (e.g., Unity)

Decisions Made ✅

- We narrowed down our choices to three games and ultimately selected *"6 qui prend !"* as our project.

Actions and Next Steps 📋

- Finalize the choice of programming languages for the server and client.
- Decide on the database management system (DBMS) to use.

Notes 📝

- We initially forgot to specify the project manager during session. I later confirmed via email that **GERARD Kylian** is officially the project manager.
